

Environmental Policy:

Healthcare Assist ; is very much committed in reducing our environmental impact and wishes to continue improving our environmental performance as an important and fundamental part of our business strategy and operating methods. We believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

Healthcare Assist is therefore committed to reducing our environmental impact and continually it is our priority to also encourage our customers, suppliers and all business associates to do the same. This is not only a sound and commercial sense it is also a matter of delivering on our duty of care towards the future generations.

Our policies are

- Minimise our waste and then reuse or recycle as much of it as possible.
- We wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Ensure that all employees understand our environmental policy and conform to the high standards it requires.
- We minimise energy and water usage in our building, our clients buildings in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- We operate means of car sharing and encourages our staff the use of public transport is available.
- Apply principles of continuous improvement in respect of water, air energy, pollution from our premises and reduce any impacts from our operations on the environment and local community.
- We mostly purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce in advance.
- Address concerns about any breach of our Environmental Policy promptly and to the satisfaction of all concerned.
- Update our Environmental Policies regularly in consultation with staff, customers and other interested parties.
